Converting Products

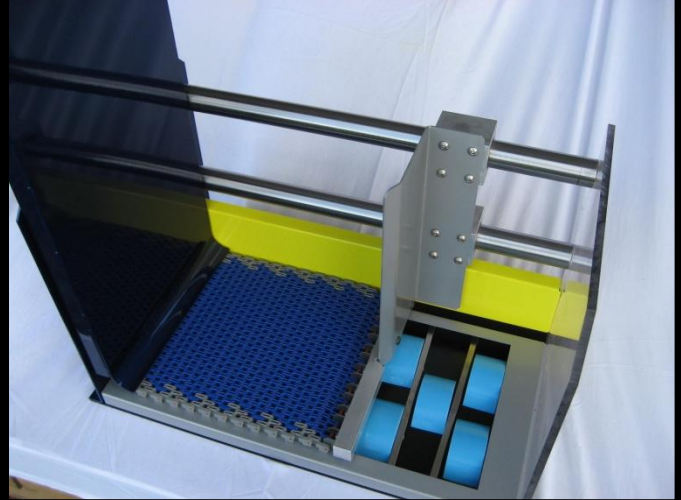

Ultra-Guard™

Application :

All Lead Edge Feeders

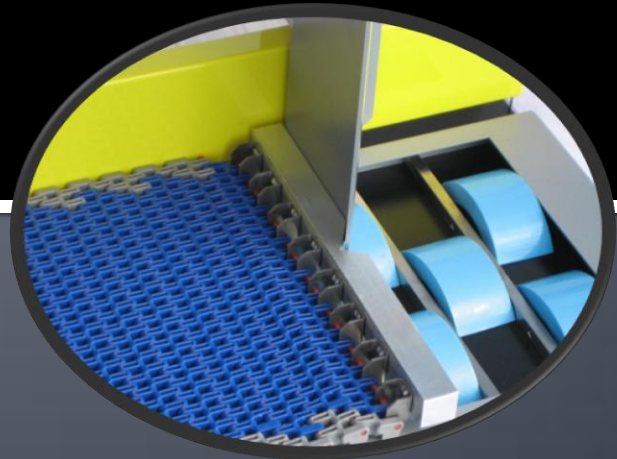

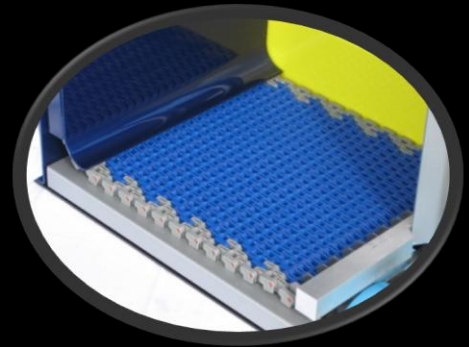

Description:

Ultra-Guard a must for any lead edge feeder! The benefit is twofold: First, the system follows the Side Guides during set-up and covers the outboard exposed wheel treads. Secondly, it closes the nip point at the toe guard. Used properly, it guards against unwanted items getting caught up in the feed wheels and feed roll.

Features:

1. Retractable Ultra-Guard Chain
2. Follows side guide during set-up "requires no additional set-up time".
3. Protects against un-wanted items getting in feed wheels and feed roll nip
4. Comes in "kit" form easily installed by plant maintenance personal.

Components:

- (2) Ultra-Guard Cassettes
- (2) Flexible Ultra-Guard "Chain"
- (2) Side Guide Mounting Brackets
- (2) Retractable Chain Tensioners
